In every league match we will be playing at least four from column 1 above and four from column 2 for the eight players that will count in the match. (League rule)

Our line up for the first match will be determined by the following:

Must be Active in the program, pre-season matches, scoring average of last year, as well as High School and College Golf averages.

The second match will be determined by the above and their scores from the first match.

After the second match we will be going by stroke average of this year's matches and availability.

With some of our players still finishing college, vacations, graduations, and etc. this system works best for us.
